

Ruffneck™

Heaters for the Harshest Environments

Rugged and Reliable - "Of course, it's a Ruffneck™!" Presenting the EFX Explosion-Proof Exhaust Fan

The Ruffneck™ EFX Explosion-Proof Exhaust Fan is designed for hazardous and general purpose industrial applications. The EFX is constructed with epoxy-coated steel panels and spark resistant aluminum fan blades for ventilation of combustible materials, vapors and hazardous fumes.

Standard Features

- Fully assembled for easy installation
- Explosion-proof motors are CSA approved and/or UL listed
- Spark resistant aluminum fan blades
- Epoxy-coated steel construction
- Fan guards conform to OSHA specifications
- 60Hz motor complete with electrical junction box

Optional Features & Accessories

- Stainless steel panels and fan guard
- Heresite® coated panels, fan guard and fan blade
- General purpose motor
- Washdown motor
- Stainless steel construction with washdown motor
- Backdraft damper
- Rain hood complete with bird screen
